From Bicom Systems Wiki

IMPORTANT: PBXware 4.1.2 has reached its END OF LIFE status. Please bear in mind that limited support will be available until June 30th, 2020.

PBXware is a scalable telephony solution featuring a range of traditional telephony and emerging VoIP technologies. It offers a national/global voice network in addition to a complete range of Analog, Digital, and VoIP channels, all fully supported. Functionality includes: Voicemail, IVR, ACD Queues, Call recording/monitoring, Conferences, Auto Provisioning/Configuration, and much more.
